REASONS FOR ALLOWANCE

Claims 1-5, 7-9, and 11-19 are allowed.

The following is an examiner's statement of reasons for allowance: Applicant has properly incorporated the allowable subject matter of claim 6 into claim 1 and the allowable subject matter of claim 10 into claim 9. As per independent claims 1 and 9, the combination of Gedney and Mankowitz does not teach the combinations as claimed, and in particular Gedney does not teach receiving module 29 comprising a microcomputer that transmits the final control command signal converted and decoded by the signal decoder to the air conditioner, and transmits operating state data of the air conditioner operated according to the final control command signal to the PSTN. As per independent claim 15, the prior art (and in particular the combination of Gedney and Mankowitz) does not teach the combination of steps as recited, and in particular the step of transmitting operating state data of the air conditioner operated according to the final control command signal to one of the electronic device and the telephone through the PSTN.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
